**TRUSTED PARTNER FOR  
INSULATION SYSTEM  
AND ACCESSORIES**

**FEZECO MIDDLE EAST LLC.**

**KSA UAE OMAN**

[www.fezeeco.com](http://www.fezeeco.com)

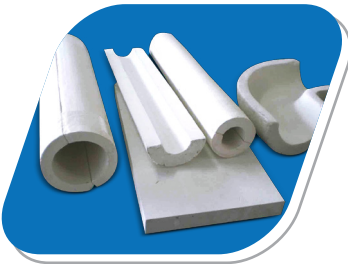

We are among the most credible innovative international suppliers of Hot Insulation, Cold Insulation, Jacketing and Cladding, Insulation Ancillaries Inspection plugs and other engineered products. Our products are used by leading global companies in key energy market segments including Refining, Petrochemical, LNG, Power, and Subsea. We are based in Dubai and having our branches spanning across Saudi Arabia & Sultanate of Oman.

## Hot Insulation

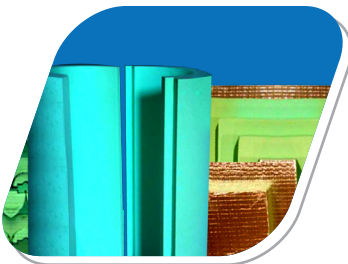

Fezeco offer a wide range of hot insulation products used to insulate heated pipes and equipment for the purposes of Heat Conservation or Personal Protection mostly by some kind of fibers and resins.

- **Calcium Silicate**
- **Ceramic Fibre**
- **Rockwool**
- **Fibre Glass**
- **Perlite Insulation**
- **Aerogel**

### Advantages

- Excellent thermal and acoustic insulation.
- Reduces heat loss for energy savings.
- Highly resilient to deformation.
- It's corrosion-free.
- High compressive strength.

## Cold Insulation

Fezeco offer a CFC free rigid closed cell , high performance insulation for pipe, cold, cryogenic, vessel, equipment and duct applications. These Insulation materials has many diverse application in HVAC System, Oil, Petrochemical, Process Plant, Cryogenic and General Insulation Industries .It can be used for Pipe ,Duct, Vessel ,Tank and Equipment Insulation.

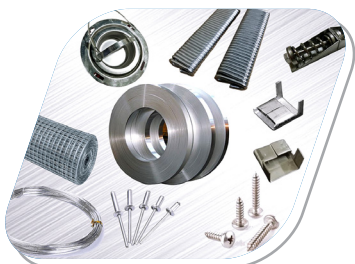

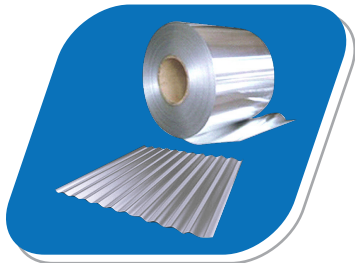

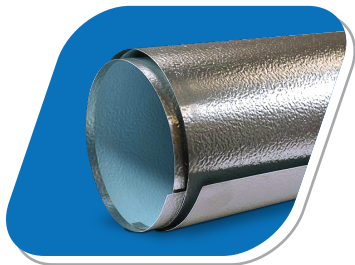

- **Polyurethane (PUR)**
- **Polyisocyanurate (PIR)**
- **Phenolic Form**
- **Cellular Glass Insulation**

### Advantages

- Very good flame spread/smoke developed performance
- Closed cell and non-fibrous structure
- Exceptional moisture resistance (both liquid and vapor)
- Strength and durability
- Excellent chemical resistance

## Jacketing & Cladding

Jacketing & cladding is the protective outer surface for mechanical insulation systems including pipe, vessels, and equipment. It protects the insulation and underlying pipe/vessel from physical damage, UV exposure, corrosive atmospheres, & water.

- **Aluminium: Plain, Stucco Embossed Corrugated & with Moisture Barrier**
- **Aluminized Steel (Type 1 & Type 2)**
- **Stainless Steel Jacketing (304/316 Grade) with Moisture Barrier, Corrugation etc**
- **Galvanized Steel**
- **Aluzinc**

## Ancillaries

Fezeco offers the entire range of ancillary products required for the application in thermal insulation systems.

- **Bands & Seal (SS304, SS316)**
- **Blind & Hammering Type Rivets**
- **Flat bar, Perforated Pins**
- **Wire Mesh (Expanded & Welded)**
- **Stuck up Pins, Tie wire**
- **Toggle Clip, Screws & Washers**
- **Adhesive & Mastics**

## Inspection Plug

Inspection Plug is the easiest way to inspect (NDT & Visual inspection) without disrupting the insulation system. Fezeco manufacture & supply good quality inspection plug which can be installed on the outside of the insulation jacket of any insulated system, the inspector can safely & easily get access under the insulation without the need to remove the Jacketing & Insulation. The easy access allows an inspector to use a UT meter to perform a thickness measurement and also allows for visual inspection for monitoring for corrosion under insulation (CUI).

### Advantages

- Easy access for the inspection, install once & inspect as often as you choose.
- Helps to prevent Corrosion under Insulation (C.U.I.)
- Excellent UV & Ozone resistance.
- Reduces inspection cost & time.
- Suitable for Hot, Cold & Cryogenic piping & Equipment insulation.
- Provides a consistent inspection point while ensuring that all the future inspection are done at the same location.
